Moonridge Water Schedule for 2023 Season

House numbers ending in odd numbers are allowed to water on odd number calendar days beginning in April and do not change them every month to account for different number of days.

House numbers ending in 1&3 are allowed to water from Midnight to noon. 5,7,&9 are allowed to water from Noon to Midnight.

House numbers ending in even numbers are allowed to water on even number calendar days.

House numbers ending in 0&2 are allowed to water from Midnight to Noon. 4,6,&8 are allowed to water from Noon to Midnight.

Please check your main filter screed. It may become partially blocked. You may also have screens in your individual sprinklers that can clog up. If you still experience low pressure try moving your sprinkler time an hour or two to catch a lessor demand time.

Every year we have 10-15% of our homeowners who for whatever reason don't have their irrigation dues paid in full. If you are sure you paid in full, Thank You, if not please call New York Irrigation (208-378-1023) and find out your balance and get it paid. The water we get is based on the number of homeowners paid.

As soon as we are notified by New York Irrigation of the date the water will be turned on, we will post the date on the website at www.dev-services.com
